DE MÉXICO

Grupo Total Care de México, is a company with more than 15 years of experience producing and commercializing personal care products with 100% Mexican investment.

Our main objective is to satisfy and exceed all the expectations that the customer has of our products always offering a competitive price, all our raw material is measured under strict norms and quality standards, thereby forcing each supplier to comply with these standards.

Our relationship with our customers and suppliers is characterized by cooperation and open communication, we are committed to respond enthusiastically, professionally and immediately to any need expressed.

Our success depends on constant dedication to these principles. Quality includes each and every aspect of the business, from safety to the final destination of the product.

Our mission is to create and inspire moments of optimism through our brands and actions to create value and leave our mark on each and every customer.

We are known for being an excellent workplace, where our staff is inspired to give the best of themselves, in addition to the fact that each one of us cares about global sustainability, we are responsible with the environment for a better world.

We offer the world a portfolio of brands that both anticipate and satisfy the desires and needs of our customers.

We have identified a set of core values that will help us maintain and grow the flame of our business.

Some of these values are timeless, arising from our history, others will be new to us, but all of them must live in our hearts and minds, manifesting themselves day by day in each of our activities.
